

IPS30

802.3at 30W Gigabit Industrial PoE+ Splitter

Product Description:

IPS30 is an economical, reliable, and high-performance 30W Industrial Gigabit PoE+ splitter. Designed in compliance with the IEEE 802.3at standard, it efficiently separates power and data from the incoming PoE+ signal. Compatible with standard IEEE 802.3at PoE+ switches and injectors, it delivers both data connectivity and stable power to non-PoE devices.

With an max output rating of 12V/2A of a peak power up to 24W, this splitter enables greater deployment flexibility in SOHO and home networks by eliminating the need for dedicated power cabling. Ideal for a wide range of applications—including wireless access points, CCTV, VoIP equipment—the IPS30 helps you build a more dependable and streamlined network infrastructure.
